

TC's supports Internet Specials...

Contributed by Tony Carson
Thursday, 09 August 2007

The guys at TC's appreciate a good deal when we see one, and we realise that most of these good deals are coming from overseas mail order websites. If you've recently cashed in on some internet specials, bring your purchases into TC's Bike Barr to let us set them up properly. Correctly set up componentry can greatly increase the lifespan and performance of your bike, and nobody knows how to set up bikes like TC's mechanics!
